Our Best-Selling Materials for BigRep STUDIO

## Fuel Your Biggest Ideas with BigRep Material Credits

The STUDIO Performance+ Bundle includes material credits you can redeem for the filaments your projects need. Mix and match for your applications, or let us recommend a starter pack for your team.

### PRO HT

BigRep's PRO HT is incredibly easy to print, consistently producing beautiful results, and one of our best-selling filaments.

### HI-TEMP

BigRep's HI-TEMP filament is especially stiff with minimal warping, producing rigid, highly accurate parts with an attractive matte finish.

### HI-TEMP CF

BigRep's HI-TEMP CF is a strong, heat-resistant filament reinforced with chopped carbon fiber for high-performance 3D printing.
